NOTICE OF SALE.

NOTICE IS HEREBY GIVEN: That at the Council Chamber in the City Hall, Bisbee, Arizona, at 2 o'clock P. M., of the 19th day of July, 1915, the undersigned will offer for sale to the highest bidder, not less than the appraised value thereof, under the provisions of Sec. 5308 Civil Code of Arizona 1913, the following described lots of land, to-wit:
Lots 25, 26 and 27, in Block numbered 26 of the Bisbee Townsite, according to the official map thereof on file and of record in the office of the County Recorder of Cochise County, Arizona.

I. C. E. ADAMS,
Trustee of the Townsite of Bisbee.

GRAVE VIEW TAKEN

Continued From Page One)
opinion expressed in the Berlin press, relative to the German reply to the American note concerning the sinking of the Lusitania and Germany's submarine warfare, shows that aside from a few irreconcilable newspapers, the press generally approves the concessions offered the United States.
They seem sincerely desirous that a way be found on this, or perhaps a modified basis, to preserve friendly relations with the United States, and to satisfy just wishes of America and other neutral countries without putting into effect what virtually would be a disarmament of Germany in the midst of war.

The Tageblatt, Lokal Anzeiger, Morgan Post, representing the three great Berlin press combinations all point out with a certain degree of satisfaction that the response will disappoint the coterie of "heretics of the pen" who for weeks have been insisting on an uncompromising answer in defiance to the United States. A general survey of editorials would indicate that the government, if the negotiations continue will have far less difficulty to press the arranging for a settlement along such lines than the publicity campaign of recent weeks promised.

CANADIAN TROOPS SAFE.

MONTREAL, July 10.—Word was received the steamer Northland, was two thousand Canadian troops, arrived at Plymouth. Among the military, united the second University Company which includes a number of men from McGill, Toronto, Kingston, Winnipeg, Calgary, Victoria and other Canadian universities.

KNOW THY COUNTRY

III—Telegraph and Telephone

Our transportation facilities are the most perfect product of this great commercial age and the telegraph and telephone systems of this nation crown the industrial achievements of the whole world. These twin messengers of modern civilization, born in the skies, stand today the most faithful and efficient public servants that ever tolled for the human race.

They are of American nativity and while warm from the mind of the inventive genius have, under American supervision, spun a net-work of wires across the earth and under the seas. Telegraphy, in its early youth, mastered the known world and the telephone has already conquered the earth's surface, and now stands at the seashore ready to leap across the ocean.

No industry in the history of the world has ever made such rapid strides in development and usefulness, and none has ever exerted a more powerful influence upon the civilization of its day than the Telegraph and Telephone. Their achievement demonstrates the supremacy of two distinct types of American genius—invention and organization.

The industry was peculiarly fortunate in having powerful inventive intellects at its source and tremendous funds to direct its organization and growth. It is the most perfect fruit of the tree of American industry and when compared with its European contemporaries, it thrills every patriotic American with pride.

Ambitious youth can find no more in-

spiring company than the fellowship of the giant intellects that constructed this marvelous industry and a journey along the pathway of its development, illuminated at every mile-point of its progress by the lightning-flashes of brilliant minds, will be taken at a very early date.

A brief statistical review of the industry brings out its growth and magnitude in a most convincing and unforgettable manner.

The telephone service of the United States is the most popular and efficient and its rates are the cheapest of the telephone systems of the world.
We are the greatest talkers on earth. We send 60 per cent of our communications over the telephone. The world has about 15,000,000 telephones and of this number the United States has approximately 9,500,000. Europe 1,020,000 and other countries 1,000,000. According to the latest world telephone census, the total telephone investment is \$1,906,000,000 and of this amount \$1,095,000,000 was credited to the United States, \$405,000,000 in Europe and \$175,000,000 in other countries. The annual telephone conversations total 24,600,000,000 divided as follows: United States 15,600,000,000; Europe 6,800,000,000, and other countries 2,200,000,000. The total world wire telephone mileage is 35,283,000 miles divided as follows: United States 20,248,000, Europe 10,335,000, and other countries 2,679,000. About six per cent of the world's population and sixty-one per cent of the telephone wire mileage is in the United States.
